A BOOK FULL OF FACTS ABOUT

**DR. McLAUGHLIN'S ELECTRIC BELT FOR WEAK MEN**

I KNOW THAT NO MAN REMAINS A WEAKLING BECAUSE HE WANTS TO; I am sure that you want to overcome every indication of early decay that has shown itself on you. I don't think the man lives who would not like to feel as big and strong as a Sandow, and I know that if you have a reasonable foundation to build upon I can make you a bigger man than you ever hoped to be. I want you to know that, you who can't believe it, and I want you to have my book, in which I describe how I learned to restore it; also I want to tell you the names of some men who will tell you that when they came to me they were physical wrecks and are now among the finest specimens of physical manhood.

I want you to read this book and learn the truth about my arguments. If you are not as vigorous as you would like to be, if you have rheumatic pains, weak kidneys, loss of vitality, prostatic troubles, nervous spells or any ailment of that kind that unmans you, it would assure you future happiness if you would look into this method of mine. Don't delay it, your best days are slipping by. If you want this book I send it closely sealed, free, if you send this ad.

For the Week Ending February 11, 1905.

Honolulu, T. H., February 13, 1905.

**GENERAL SUMMARY.**

The unusually cold spell, which began with the first week in January, has at last been broken, temperatures in all sections of the group having risen during the past week to about the normal for this season of the year. Light winds have prevailed, and during the latter part of the week the sunshine has been abundant. In Hawaii, the rainfall has been considerable in amount in all windward sections, the drought in the Puna and lower Hilo districts having been terminated by heavy showers. In Kau, the situation has been slightly relieved by very light rains, while in Kona the drought continues unbroken. The rainfall has been fairly heavy over eastern Maui, but the central and western sections have been relatively dry, especially to leeward. Only light rains have fallen in Oahu. In Kauai, dry weather has prevailed in leeward sections, while to the windward the rainfall has been abundant except in the northern portion of the Puna district.

Under the favorable weather conditions of the week, vegetation in general shows a decided improvement. Young cane is growing nicely, and pineapple plants are in good condition. The young rice already set out is growing well, and transplanting from nursery beds continues. Cane grinding and sugar making are progressing rapidly. Pastures and stock are improving, except in leeward Hawaii and portions of leeward Maui.

**BRASS BUTTON ACTS.**

Acts were passed in the reigns of William III., Anne and George I. which made it illegal for any tailor to make or any man to wear clothes with any buttons other than those made of brass appended thereto. The law further enacted that not only should any tailor who committed a breach of it be fined 40 shillings but also that he should not be able to recover from his customer in a court of law the price of the suit which he had adorned with the offending buttons. The whole object of the act was to protect the Birmingham metal button makers. A case which came before the courts in the year 1854 or 1855, in which a man, on being sued by his tailor, raised a successful defense relying on the acts in question, that the buttons on the clothes which he had ordered were bone and not brass called attention to the existence of the anachronism, and the restrictions were soon after abolished.—London King.

**AN ABSENT MINDED STATESMAN.**

Representative Byrd, of Mississippi, has established what one of his colleagues has termed the "long-distance record for absent-mindedness." The other day when the house adjourned and members were flocking to their committee rooms or for the Capitol exits Mr. Byrd hurried out with his overcoat buttoned up about his chin, but with no hat on. He was evidently making tracks for the nearest car line. A doorman spied the rushing bare-headed statesman and gasped with astonishment. Then he sent a page flying in pursuit. Mr. Byrd was overtaken before he left the building. "Mr. Byrd, you've forgotten your hat," panted the page. "Mercy sakes, so I have," said the Mississippi, placing his hand to his head quickly. "Run back to the cloak room, son, and tote it to me."
